A NOTE ON FORWARD-LOOKING STATEMENTS

This report contains forward looking statements. These statements primarily relate to assessments of future economic and market conditions. Such information has been included to assist readers with assessing recent developments in the Fund's operating climate and possible future developments that may affect Fund performance. All forward looking statements are based on management's current beliefs and assumptions which are subject to numerous risks and uncertainties. Statements with respect to future economic and market conditions are based on management's beliefs and assumptions with respect to a range of factors, including market conditions generally and within the sectors in which the Fund's investments operate. While management considers such beliefs and assumptions to be reasonable based on information currently available to it, no assurance can be given that such beliefs and assumptions will prove to be correct. As a result, these forward looking statements would typically include words such as "anticipates, believes, intended or estimated". Events or circumstances may cause actual results to differ materially from those expressed or implied by such forward looking statements as a result of numerous known and unknown risks and uncertainties, including, but not limited to, those associated with economic and market conditions, political stability and other risks identified in the Fund's prospectus. Most of these factors are beyond the control of the Fund and its Manager. Neither the Fund nor its Manager assumes any obligation to update any of the forward looking statements made in this report.

Management Discussion of Fund Performance

Results of Operations

As at June 30, 2018 the Fund's total NAV was \$2,468,760, a decrease of 19.37% since the prior year end (December 2017: \$3,061,758). This decrease was primarily due to net redemptions of \$240,027, net realized loss on sale of investments of \$96,689, net unrealized depreciation on investments of \$184,239 and operating fees of \$45,975.

Over the past six months, the Fund's Series A shares declined 19.93%. See the Financial Highlights section for the management expense ratios and the Past Performance section for the returns of the other classes, which may vary because of differences in management fees and expenses.

In accordance with the Fund's investment objectives and strategies, the Fund invests solely in Class F units of the Marquest Canadian Resource Fund (the "Underlying Fund"). The discussions in the 'Results of Operations' and 'Recent Development' sections of the MRFP reflects that of the Underlying Fund.

The S&P/TSX Composite Index gained 0.42% in the first six months of 2018. The resource sectors had mixed performance over the period. The energy sector was relatively strong with the S&P/TSX Energy Index up 2.80% supported by the gains in crude oil pricing. The mining area was on the other hand weak with the S&P/TSX Diversified Metals & Mining Index and the S&P/TSX Gold Index declining 7.90% and 1.10% respectively.

During the first six months of 2018 the Fund held a balanced position between the Oil & Gas, Precious Metals and Base Metals sectors. Late in the second quarter the Manager raised cash to adopt a more defensive posture in the portfolio. At mid-year the Fund had 12.51% in short term securities.

Recent Developments

While global GDP remains relatively robust, the nagging uncertainty of trade negotiations is having a damping impact on the prospect of future growth in the emerging economies and most importantly China. Any change in China's economy will have a direct impact on commodity pricing due to their relatively large portion of global demand. Raising interest rates by the US Federal Reserve is another important factor in gauging the growth prospects for the global economy. For now demand for raw materials is strong and inventories are well matched to current demand which should continue to support firm prices.

Proposed Change of Manager

On June 22, 2018, the manager Marquest Asset Management Inc. and Stone Investment Group Limited announced that the Firms have entered into a binding agreement for Stone to acquire the management contract of the Fund.

The shareholders and/or unitholders of the Funds have passed the resolution to change the Manager to Stone Investment Group Limited on August 27, 2018, however the transaction is still waiting on regulatory approval.

Related Party Transactions

The Fund invests solely in Class F units of the Underlying Fund. As a result, the Fund does not pay management fees on its assets that it invests in the Underlying Fund that would duplicate a fee payable by the Underlying Fund for the same service. The Fund will also not pay any sales fees or redemptions fees with respect to its purchase or redemptions of securities of the Underlying Fund. The rates set out under “Management Fees” below indicate the management fee directly borne by the Fund.

Marquest Asset Management Inc. is the Manager (“the Manager”) of the Fund.

The Manager of the Fund is responsible for managing all of the Fund’s activities, including investment advisory and portfolio management services under a Management Agreement. The Management Agreement is subject to automatic renewal for additional one year terms. The Management Agreement may be terminated during its term if the Manager defaults in its performance of any of its duties or obligations thereunder and if the holders pass a resolution at a meeting of holders terminating the Management Agreement as a result of such default. Further, the holders of a Fund may, by resolution passed at a meeting of holders at least 180 days before the end of the initial term or each anniversary thereof, elect not to renew the Management Agreement, whereupon the Management Agreement will not be renewed beyond its existing term.

During the period, \$14,419 in management fees (including HST) was paid to the Manager. The Fund reimbursed the Manager for operating costs (including HST) incurred in administering the Fund of approximately \$9,237.

As disclosed in the Fund’s prospectus, the Manager may voluntarily waive, absorb or pay a portion of the Fund’s fees and expenses, at its discretion. During the period the Manager absorbed \$4,044 in expenses of the Fund.

Notes:

⁽¹⁾ The information is provided as at December 31st of the year shown.

⁽²⁾ Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period.

⁽⁴⁾ The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

⁽⁵⁾ Waivers and absorption of certain expenses associated with the Fund are at the Manager's discretion and may be terminated at any time.

*The financial information is for the six-month period ending June 30, 2018.

** Series A shares were first issued on June 25, 2004.

Management Fees

The Management fees for each applicable series are calculated daily and are based on the Fund's ending total NAV per series; cumulative daily totals are then paid on a weekly basis. The Manager uses these management fees to pay sales and trailing commissions to registered dealers on the distribution of the Fund shares, as well as for the general investment management expenses.

	Maximum Annual Management Fee Rate (%)	As a percentage of Management fees	
		Sales & Trailer Commissions (%)	Investment Advisory and Portfolio Management Services (%)
Series A Shares	2.00%	91.01%	8.99%
Series F Shares	1.00%	0.00%	100.00%

Past Performance

The performance information shown assumes that all distributions made by the Fund in the years shown were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemptions, distributions or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future. Performance differences between series of shares are mainly attributable to management fees charged to each series.

Year-by-Year Returns

The following bar chart shows the Fund's annual Series A and Series F performance for each of the years shown, and illustrates how the Fund's performance has changed from year to year. In percentage terms, the bar chart shows how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.
