**A NOTE ON FORWARD-LOOKING STATEMENTS**

*This report contains forward looking statements. These statements primarily relate to assessments of future economic and market conditions. Such information has been included to assist readers with assessing recent developments in the Fund's operating climate and possible future developments that may affect Fund performance. All forward looking statements are based on management's current beliefs and assumptions which are subject to numerous risks and uncertainties. Statements with respect to future economic and market conditions are based on management's beliefs and assumptions with respect to a range of factors, including market conditions generally and within the sectors in which the Fund's investments operate. While management considers such beliefs and assumptions to be reasonable based on information currently available to it, no assurance can be given that such beliefs and assumptions will prove to be correct. Events or circumstances may cause actual results to differ materially from those expressed or implied by such forward looking statements as a result of numerous known and unknown risks and uncertainties, including, but not limited to, those associated with economic and market conditions, political stability and other risks identified in the Fund's prospectus. Most of these factors are beyond the control of the Fund and its Manager. Neither the Fund nor its Manager assumes any obligation to update any of the forward looking statements made in this report.*

## ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended December 31, 2019

---

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the Marquest Mutual Funds Inc. Flex Dividend and Income Growth™ Series Fund (the “Fund”). You can get a copy of the annual financial statements at your request, and at no cost, from the manager Marquest Asset Management Inc. (the “Manager”) by calling toll-free 1-877-777-1541, by writing to us at 27<sup>th</sup> Floor, 161 Bay Street, Toronto, Ontario, M5J 2S1 or by visiting our website at [www.marquest.ca](http://www.marquest.ca) or SEDAR at [www.sedar.com](http://www.sedar.com).

Securityholders may also contact us using one of these methods to request a copy of the Fund’s proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

### ***Management Discussion of Fund Performance***

#### ***Investment Objectives and Strategies***

##### *Investment Objectives*

The fundamental investment objective is to seek long-term capital appreciation by investing primarily in large-cap, and secondarily in small- and mid-cap, high yield securities. It is expected that 75% of the Fund’s portfolio will be invested in a combination of dividend-paying and income bearing investments.

##### *Investment Strategies*

The primary method of selection for securities applies the value approach to high yield investments. This involves some and/or all of the following:

- Selecting organizations that offer superior long-term earnings and cash flow per share growth.
- Selecting organizations that have a consistently proven strong position in the market, quality management and balance sheet strength.
- Actively managing asset mix allocations between equity, fixed income and cash.
- Overweight favoured sectors and individual securities and reduce or eliminate unfavourable investment exposure.
- Choose to focus on areas of best probability through fluid and active asset allocation as well as focused industry and security selection.

### ***Risks***

There are risks associated with investing in the Fund. There have been no changes to the Fund which affected the risks associated with investing in the Fund during the year. Specific risk information can be found in the Fund’s prospectus available through our website at [www.marquest.ca](http://www.marquest.ca) or at SEDAR’s website [www.sedar.com](http://www.sedar.com).

### ***Results of Operations***

As at December 31, 2019 the Fund’s total NAV was \$5,546,068, a decrease of 0.99% since the prior year end (December 2018: \$5,601,300). The change is due to net redemptions of \$746,305, management fees of \$105,307 partially offset by dividends of \$230,860 and change in net unrealized appreciation on investments of \$568,462.

Over the past year the Fund’s Series A/Regular shares returned 12.2%. This compared to the return for the S&P/TSX Equity Income Index of 19.6% and the S&P/TSX Composite Index of 19.1%. The Fund’s return is after the deduction of fees and expenses, while the benchmarks and board based index returns do not include any costs of investing. See the Financial Highlights section for the management expense ratios and the Past Performance section for the returns of any other series, which may vary because of differences in management fees and expenses.

The portfolio’s relatively weak returns were due to the under weighting in the materials, utility and technology sectors which had relatively strong results. At year end the sector weightings of the portfolio were 15.57% energy, 9.12% consumer discretionary, 10.80% utilities, 7.15% industrials, 8.36% financials, 15.28% real estate, 5.02% consumer staples, 2.59% communication services, 2.50% healthcare and 23.61% short term securities. The Fund maintained a relatively high dividend yield during the year. At year-end the dividend yield of the invest portion of the portfolio was 4.97%.

## ***Recent Developments***

Global economic growth is showing signs of reaccelerating in the coming months. China's economy in particular appears to be rebounding as aggressive monetary easing coupled together with a stimulative fiscal policy has been underway for several months. The signing of the first phase of the US/China trade resolution will also improve growth in both the US and Chinese economies. While the Coronavirus is expected to have a significant impact on global growth in the near term and on the Chinese economy in particular we expect the policy response to be an even more aggressive fiscal and monetary expansion. This will likely cause an even greater rebound in economic activity once the Coronavirus has been contained.

## ***Related Party Transactions***

The Manager of the Fund is responsible for managing all of the Fund's activities, including investment advisory and portfolio management services under a Management Agreement. The Management Agreement does not have a fixed termination date. The Manager may terminate the Management Agreement on 60 days' notice if the Fund is not in breach or default of its obligations under the Management Agreement or on 30 days' notice if the Fund is in breach or default of its obligations. The Manager may only be removed by the Fund if a certain specified events of default have occurred or by an extraordinary resolution of unitholders. Management fees are paid by the Fund as set out under "Management Fees" below.

During the year, \$105,307 in management fees (including HST) was paid to the Manager.

Notes:

<sup>(1)</sup> The information is provided as at December 31st of the year shown.

<sup>(2)</sup> Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.

<sup>(3)</sup> The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period.

<sup>(4)</sup> The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

<sup>(5)</sup> Waivers and absorption of certain expenses associated with the Fund are at the Manager's discretion and may be terminated at any time.

## Management and Performance Fees

The Management fees for each applicable series are calculated daily and are based on the Fund's ending total NAV per series; cumulative daily totals are then paid on a monthly basis. The Manager uses these management fees to pay sales and trailing commissions to registered dealers on the distribution of the Fund shares, as well as for the general investment management expenses.

	Maximum Annual Management Fee Rate (%)	As a percentage of Management fees	
		Sales & Trailer Commissions (%)	Investment Advisory and Portfolio Management Services (%)
Series A /Regular Shares	2.00%	43.29%	56.71%
Series F Shares	1.00%	100.00%	0.00%
Series I Shares	Negotiated	0.00%	100.00%

The Fund will incur a performance fee equal to 20% x (Series % gain *minus* Benchmark % gain) x (Series Average NAV). The benchmark is 5% 60 day Canadian treasury bill rate, 10% BMO Nesbitt Burns Preferred Share index, 10% S&P TSX Utilities Index, 15% S&P TSX Income Trust Index, 20% S&P TSX Capped Financials Index and 40% S&P TSX 60 Index. See Simplified Prospectus for details. No performance fees were paid during the year ended December 31, 2019.

## Past Performance

The performance information shown assumes that all distributions made by the Fund in the periods shown were reinvested in additional securities of the Fund. The performance information does not take into account sales, redemptions, distributions or other optional charges that would have reduced returns or performance. How the Fund has performed in the past does not necessarily indicate how it will perform in the future. Performance differences between series of units are mainly attributable to management fees charged to each series.

## Year-by-Year Returns

The following bar charts show the Fund's annual Series A, Series F and Series I units performance for each of the periods shown, and illustrates how the Fund's performance has changed from year to year. In percentage terms, the bar chart shows how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.

## Annual Compound Returns

The table below compares the annual compounded return of the Series A Regular, Series F and Series I shares of the Fund against the S&P/TSX Composite TR and a blended index which is comprised: 5% 60 day Canadian treasury bill rate, 10% BMO Nesbitt Burns Preferred Share index, 10% S&P TSX Utilities Index, 15% S&P TSX Income Trust Index, 20% S&P TSX Capped Financials Index and 40% S&P TSX 60 Index. The S&P/TSX Composite TR is a market capitalization weighted, total return index comprising of stocks within the S&P/TSX Completion Index. It is calculated in Canadian dollars and is comprised of stock (equity) prices of small and mid-sized capitalized companies. It encompasses a broad spectrum of economic sectors and is a benchmark that is designed to measure equity market performance in Canadian markets. For performance purposes, the indices assume the reinvestment of all dividends.

As the indices is made up of a group of securities from various asset classes and market capitalizations, they do not share the same holdings or the same weighted proportions as the Fund and compounded total returns between the two may differ. For greater in-depth discussion regarding the Fund's asset class holdings and performance over the year please see the "Results of Operations – Investment Portfolio" section of the MRFP.
