SECTOR WEIGHTING*

■ GOLD	54.1%
■ BASE METALS	28.7%
■ URANIUM	11.1%
■ LITHIUM/GRAPHITE	6.1%

FEATURE HOLDING: Zonte Metals Inc.

Zonte has three exploration properties in which it has a 100% interest, Cross Hills an Iron Ore Copper Gold (IOCG) and the Wings Point Gold Project which are both in Newfoundland and McConnells Jest gold project in the Yukon.

Cross Hill is the main focus for the company to which the majority of the \$1.5 million financing last fall will be committed. The project covers 25 km and has several large target areas that have been identified from a regional airborne survey. In the Phase 1 drilling program a high-grade discovery was made at the Dunns Mountain target with grades of 14.0% Copper, 15.8 g/t gold and 352 g/t silver over a 0.43 metre interval.

The McConnells Jest project is located between two significant resource areas, Victoria Gold's Dublin Gulch gold deposit with a 6.3 M ounce gold resource and Alexco's Keno Hill silver deposits. The company has completed two drill holes both of which encountered gold mineralization. The MJ-04 hole intercepted two zones; 20.44 m of 0.72% g/t and 20.38 m of 0.69% g/t. The company plans to step from MJ-04 on the next phase of drilling to extend the initial discovery hole.
